National Red Cross Union Coalition Meeting Update

The Red Cross Union Coalition met in Washington DC for a meeting with National Red Cross for discussions about national contract issues.

We are working towards agreement on ground rules before we formally enter national negotiations. The ground rules we are exploring address the relationship with local collective bargaining, the scope of national issues, and other items.

Both sides discussed the scope of issues we might bargain on a national level including but not limited to pension and health benefits, staffing, scheduling, and compensation.

Our eight national unions from across the country are committed to standing together to make this process work. We set our next meeting dates with National Red Cross coming up on **May 5-May 7, 2015.**
