

## **Continuing Education & Personal Growth**

HPAE's Continuing Education (CE) program focuses on issues related to professional practice and the healthcare industry. HPAE CE workshops offer contact hours that the law mandates for RNs to maintain their licenses. We have also offered workshops with contact hours to Social Workers and Case Managers.

In addition to our bi-annual Professional Issues Conference (PIC), HPAE offers twice a year (in two locations) "Education Days". Contact hours are provided for such workshops as:

- Preventing Violence in Healthcare Facilities
- Evidence-based Nursing
- Protecting Your Nursing & Professional License
- HIPAA and Healthcare Professionals

HPAE also recognizes our members' needs for personal growth and financial security. Some of the workshops offered to meet these needs include:

- Mindfulness-based Stress Reduction
- Financial Planning for Retirement

For more information on HPAE's Professional Development and Personal Growth workshops, contact HPAE Vice President Bernie Gerard at [bgerard@hpae.org](mailto:bgerard@hpae.org)
