

**Our First Stand.
Save
Healthcare.**

JANUARY 15, 2017 NATIONAL DAY OF ACTION TO SAVE HEALTHCARE

Families should never be forced to choose between getting high-quality healthcare and paying the rent—and no one should face financial ruin because of an illness or injury. That's what's at stake for millions of working families who will lose their medical coverage if Donald Trump and Republicans in the U.S. Congress repeal the Affordable Care Act.

If the ACA is repealed, without being replaced:

- 30 million people will lose health coverage.
- 52 million people with pre-existing conditions will lose health coverage.
- Millions of patients and the entire healthcare system will be at risk.

Stand with us to protect healthcare.

Join with healthcare professionals and working families in collective actions around the country on Sunday, Jan. 15. For information on collective actions, go to: <http://allin.rtp.aft.org/>.

It's wrong to gamble with America's health. Stand up to:

- **Oppose the repeal of the Affordable Care Act.**
 - **Protect Medicare against privatization.**
- **Uphold high-quality patient care over profits.**

Tell your members of Congress not to repeal the ACA and to protect our care.

Call 877-337-7932.
