We met with Cooper on Thursday for our second day of negotiations. The hospital gave us their proposals and they included:

- Major changes to the current float districts throughout the hospital.
- Changing the ability to self-schedule ourselves as we currently do on the units.
- Increasing the requirements for unit based pool nurses.
- Decreasing the amount of call-outs permitted.
- Eliminating the Baylor program.
- Making newly licensed nurses wait 2 years before they are able to transfer units.

We need to show Cooper that their proposals are **unacceptable**. Please come to a bargaining session to show the hospital that nurses are standing together!
