TAKE ACTION TO STOP THE STATE FROM INCREASING YOUR HEALTH CARE CONTRIBUTIONS

The State of New Jersey is proposing a drastic increase in your healthcare contributions. This increase would create a hardship for all public workers who are in the State Health Benefits Plan and who are already struggling under crushing inflation.

**TAKE ACTION NOW
CALL GOVERNOR MURPHY
833-479-1993**

Call on your break or at lunch-not after hours-because there's no voicemail option. You'll be connected with the Governor's office.

Tell them:

My name is _____ and I work for (college/hospital). I am calling to demand the Governor to stop any increase to my health care contributions.

Thank you.

(If you don't get through initially, keep calling back until someone answers!)
